Nawi Ng (MD from Gadjah Mada University, MPH and PhD from Umeå University), is a Professor of Global Health at University of Gothenburg, Sweden. He is also a Guest Professor at Umeå University, Sweden.

His research focuses on epidemiology of non-communicable diseases and ageing, disability and quality of life among older people in Sweden and in low- and middle-income countries in collaboration with the WHO and the INDEPTH Network. He is leading the Global and Public Health research group at the Department of Public Health and Community Medicine at the University of Gothenburg. During 2019-2022, he leads five research projects funded by different Swedish Research Councils on: (i) poverty and ageing in Myanmar; (ii) implementation research on the integration of TB, DM and tobacco control programme in India and Indonesia; (iii) digital coaching for sustainable behavior change and health promotion in Sweden; (iv) developing risk prediction score for cardiovascular diseases using big data; and (v) social capital for planning and design of a sustainable neighbourhood in Sweden.

He has published 115 papers in peer-review international journals, including in the Lancet, International Journal of Epidemiology, Bulletin of the WHO, European Journal of Preventive Cardiology, BMC Geriatric, etc. He has a H-index of 36. He has supervised ten PhD students to completion (seven as main supervisor). He is currently supervising eight other ongoing PhD students (three as main supervisor) at University of Gothenburg, Umeå University and University of Amsterdam.

He served as the Managing Editor of the journal Global Health Action during 2007-2014, and as the Chief Editor during 2015-2018.
